| IDENTIFIERS | *Colorado; Colorado Commission on Higher Education; Indicators; Performance Based Funding |

ABSTRACT

This report presents tables of results on 10 overall quality indicators/performance measures of institutions of higher education in Colorado. The 10 indicators are: (1) graduation rates; (2) faculty teaching workload; (3) freshman retention in the same institution; (4) performance of recent graduates; (5) institutional support expenditures per FTE student; (6) availability during AY 1999-2000 of general education program lower division core courses required of freshmen; (7) support and success of minority students; and (8) number of credits required for degree. The ninth and tenth indicators were selected by each institution with approval of the Governing Board. The report also contains tables of Governing Board performance funding percentages for FY 2001-2002 for each institution. (EV)

## QUALITY INDICATORS/PERFORMANCE MEASURES, INSTITUTIONAL PERFORMANCE, POINTS, SCORING, AND GOVERNING BOARD PERFORMANCE FUNDING PERCENTAGES FOR FY 2001-02

January 2001

### PROCESS

1. Institutional performance on ten overall quality indicators/performance measures is measured. A listing of the ten overall indicators is provided later in this document.

2. Each of the ten overall indicators has 180 base points.

3. Indicator #1A incorporates three components, each having 60 base points. Indicator #7 has two components associated with the four-year institutions and two other components associated with the two-year institutions. Each component has 90 base points. Indicator #4A incorporates several components, the exact number differing among the institutions. Two of the components are utilized for each institution, those being the components for which the institution has earned the highest amount of base points (maximum of 90 for each component).

4. Institutional performance on each overall indicator or individual component is determined by the earning of points by the institution for performance related to the benchmark for the overall indicator or component. If insufficient data exists for any overall indicator or component for any institution, that overall indicator or component does not "count" in determining the total points earned by that institution. The total possible points an institution can earn is adjusted to reflect the "missing" overall indicator or component. In determining this adjustment, the institution shall neither be advantaged nor disadvantaged in terms of its relationship to institutions that do earn points for the overall indicator or component.

5. For each overall indicator or component, the expected level of performance is determined (based on the benchmark for the overall indicator or component).

6. Each institution's actual performance on each overall indicator or component is compared to the expected level of performance to determine the percent of performance achieved.

7. The percent of performance achieved is multiplied by 180, 90, or 60 to determine the points earned. If the indicator is an overall indicator, 180 is used. If the overall indicator has two components, each uses 90. If the overall indicator includes three components, 60 for each is used.

8. If the points earned exceeds 180, 90 or 60 respectively, no more than 9,5,or 3 bonus points, respectively, can be earned in addition to the base points, resulting in a maximum of 189 total points for each of the overall indicators #1-#5, #7, and #8.

9. Total points earned for an overall indicator are comprised of two parts: (1) base points earned (which may not exceed 180 points for any overall indicator) and, (2) bonus points earned (which are the points earned above 180, 90, or 60 points, respectively, for performance exceeding the benchmark and may not exceed 9 for the overall indicator).

10. Overall indicators #2, #3, #5, #7, and #8 each has 9 bonus points associated with performance exceeding the benchmark. The three components of indicator #1A each has 3 bonus points associated with performance exceeding the benchmark. The four components of indicator #7 – two for the four-year institutions only and two for the two-year institutions only – each has 5 bonus points with no more than a total of 9 for the two components combined. Each of the components of indicator #4A has 5 bonus points, with no more than a total of 9 for two of the components combined. For overall indicator #4A, only two components can be utilized.

11. Overall indicators #6, #9, and #10 do not have bonus points.

BEST COPY AVAILABLE

12. The institution's total points earned are divided by 1,800 (10 overall indicators x 180 base points each) to determine the percent of total base points earned (it is possible for an institution's total points earned to exceed 1,800 points and thus its percent of total points earned to exceed 100%).

13. A role & mission weighting factor for each institution is calculated by dividing the institution's FY 2000 - 01 general fund base – with governing board/system central administration general fund costs and "charge backs" included based on a total funds basis and less one-time funds – by the total of these general fund base amounts for all the institutions (excluding the UC-Health Sciences Center, CSU Veterinary Medicine program, and CSU agencies).

14. The percent of total base points earned is converted to the weighted percent of total base points earned by multiplying the percent of total base points earned by the role and mission weighting factor.

15. The sum of the weighted percent of total base points earned by institutions governed by a governing board determines the governing board performance funding percent.

## TEN OVERALL QUALITY INDICATORS/PERFORMANCE MEASURES AND COMPONENTS

1. Overall Indicator: Graduation Rates

   Indicator 1A: Baccalaureate Graduation Rates (four-year institutions only)

   Components: four, five, and six-year graduation rates

   Indicator 1B: Three-year Graduation Rate (two-year institutions only)

2. Overall Indicator: Faculty Teaching Workload

3. Overall Indicator: Freshmen Retention In The Same Institution Rate

4. Overall Indicator: Performance of Recent Graduates (undergraduate only)

   Indicator 4A: Achievement Scores on Licensure, Professional, Graduate School Admission, and Other Examinations Taken By Baccalaureate Graduates During FY 1998-99 and FY 1999-2000 (four-year institutions only).

   Components: Graduate Record Examination (GRE), Uniform Certified Public Accounting Examination (CPA), National Council Licensure Examination for Registered Nurses (NCLEX-RN), Fundamentals of Engineering Examination (FEE), Program for Licensing Assessment for Colorado Educators (PLACE).

   Indicator 4B: FY 1998-99 Career and Technical Graduates Employed or Continuing Their Education during FY 1999-2000 (two-year institutions only).

5. Overall Indicator: Institutional Support Expenditures per FTE Student.

BEST COPY AVAILABLE

6. Overall Indicator: Availability During AY 1999-2000 of General Education Program Lower Division Core Courses Required of Freshmen.

7. Overall Indicator: Support and Success of Minority Students.

   Indicator 7A: Freshmen Retention in the Same Institution Rate (four-year institutions only).
   Indicator 7B: Freshmen Retention in the Same Institution Rate (two-year institutions only).
   Indicator 7C: Six-year Graduation Rate (four-year institutions only).
   Indicator 7D: Three-year Graduation Rate (two-year institutions only).

8. Overall Indicator: Number of Credits Required for Degree

9. Overall Indicator: Selected by Institution with Approval of Governing Board.

10. Overall Indicator: Selected by Institution with Approval of Governing Board.

**Performance Mea**
**Overall Indicators Selected by the Insti**

No common set of quality indicators or performance m
institutions of higher education nor the uniqueness fou
diversity and the individuality of each institution, two in
college and university which it felt demonstrated the in
or expediency at the undergraduate level through its c
by each institution for each overall indicator.

Actual performance by each institution for each of its
benchmark resulting in 180 base points earned by eac

A listing of the overall indicators identified by each ins
in *Quality Indicator System Report , FY 1999-2000* , D
CCHE's web site.

**sures 9 & 10**
**:ution with Approval of its Governing Board**

neasures can capture the diversity of Colorado's twenty-eight
und among their programs and activities. In recognition of this
stitution-specific overall indicators were identified by each
nstitution's efforts to promote and enhance quality, efficiency,
own means and approaches. Benchmarks also were identified

selected overall indicators equaled or exceeded the respective
ch institution for each of the two indicators.

titution with the approval of its governing board can be found
ecember, 2000, pages 29-32. The *Report* is available on
